

PRODUCT PROFILE

SCOURDET | TECHNICAL DATA

DESCRIPTION

ScourDet is a slightly alkaline solution with abrasive compounds to aid in soil removal. The product can be used in various domestic and industrial applications.

ScourDet is ideally suited for removing stubborn soil from tiles, floors, walls, pots, and pans.

APPLICATION PROCEDURE

Heavy-Duty Cleaning:

Apply ScourDet undiluted to the soiled surface. Agitate lightly with a cloth, mop, or brush. Rinse with fresh water.

Light Duty Cleaning:

Dilute ScourDet one (1) part concentrate on twenty (20) to fifty (50) parts water and apply as above.

ScourDet may separate on standing. Shake well before use.

Refer to the MSDS for the safety and handling precautions.

KEEP OUT OF REACH OF CHILDREN.
