

# PRODUCT PROFILE

## STER-E-CLEAN C | TECHNICAL DATA

### DESCRIPTION

Ster-E-Clean C is a synergistic blend of surfactants and a powerful disinfectant. It is an effective broad-spectrum sanitizer that cuts bacteria and associated odours.

Ster-E-Clean C is suitable for use, at the recommended dilution, on tiles, floors, ceramics, and all other surfaces that need sanitizing. Suitable for use in food preparation areas.

Ideal for use in restrooms in the hospitality and contract cleaning environments.

### APPLICATION PROCEDURE

Recommended dilution ratio 1:200. The application can either be done through the spray and wipe or mop and bucket cleaning procedure. Care must be taken to clean surfaces before disinfecting. This will allow maximum product contact with bacteria.

Refer to the MSDS for the safety and handling precautions.

**KEEP OUT OF REACH OF CHILDREN.**
