

PRODUCT PROFILE

TILE CLEAN M | TECHNICAL DATA

DESCRIPTION

Tile Clean M is a cleaning detergent suited for tile cleaning operations. Tile Clean M can be used efficiently to remove light oil, grease, road grime and walk-in-dirt from floors, walls, and various other surfaces.

APPLICATION PROCEDURE

Heavy-Duty Cleaning:

Dilute Tile Clean M one (1) part concentrate on ten (10) parts water.

Maintenance Cleaning:

Dilute Tile Clean M one (1) part concentrate on twenty-five (25) to a hundred (100) parts water, depending on contamination.

Apply Tile Clean M with mop, brush, or wipe. Allow maximum contact time before rinsing away with fresh water. This product is suited for use in scrubber machines.

It is advisable to pre-wet surfaces, particularly if they are warm. Agitate badly soiled areas and spray rinse.

Tile Clean M is effective in cold solutions at room temperature. However, efficiency increases with higher temperatures. To mix, simply add to water and stir.

Refer to the MSDS for the safety and handling precautions.

KEEP OUT OF REACH OF CHILDREN.
